Improve Quality and Workflow with Auto-Checks on the CLINITEK Advantus® Urine Chemistry Analyzer

Get Lab-accurate Results in Seconds

Reduced risk

- Avoid errors from reagent degradation with Auto-Checks® for strip exposure to humidity.*
- Enhance workflow with Auto-Checks for Siemens Healthineers strip type.
- Increase confidence with an advanced quality-control system.

Confidence in results

- Exceptional result correlation across Siemens Healthineers POC and central-lab urinalysis analyzers.

Fewer errors for reduced follow-up testing

- Lab-accurate results for reduced false positives/negatives.
- Optimize workflow by flagging samples for follow-up microscopy testing.

Broad menu with a small footprint

- Multistix® 10 SG and family of strips.
- Multistix PRO® 10 LS Strips.†
- CLINITEK® Microalbumin 9 Strips.‡

Increase Efficiency and Decrease Cost

Flexible productivity for busy clinics and labs

- Ensure clinical decisions can be made sooner with high throughput.
- Minimize errors and improve audit trail with convenient bar-code data entry.
- Improve result interpretation and avoid errors with Auto-Checks sample-interference notes.

Network-ready

- Easily access patient-management information with direct access to a data-management system or LIS.

*Available only on strips with leukocyte pads.

Siemens Healthineers Urinalysis End-to-End Solutions

Standardize testing across the network with the same reagent strip technology used on all our analyzers. Choose from a broad selection of solutions from the point of care to the central lab.

CLINITEK Status® Connect System

Streamline urinalysis testing at the office, clinic, and hospital. Eliminate the need to time tests. The system reads HCG and A:C products.

CLINITEK Advantus Analyzer

Get results fast. Self-pacing analyzer rapidly reads, interprets, records, and transmits strip results every 7 seconds, or up to 500 strips per hour. The analyzer is always ready, even from standby.

CLINITEK Novus® Analyzer

Let the instrument do the work for you with walkaway automation. Combines proven dry-pad urine chemistry technology with an easy-to-use cassette test format to help ensure standardized testing.

Atellica® 1500 Automated Urinalysis System†

Consolidate and integrate chemistry and sediment analysis. Combines the trusted CLINITEK Novus® Automated Urine Chemistry Analyzer and the new Atellica® UAS 800 Urine Sediment Analyzer‡ in one completely automated unit.
