

DCA Vantage Analyzer

# Improve patient care

while decreasing costs

**SIEMENS**  
Healthineers

The DCA Vantage® Analyzer provides lab-accurate results for monitoring glycemic control in patients with diabetes and conducting annual checks for kidney disease.

- CLIA-waived HbA1c test results in minutes with just a 1 µL whole-blood fingerstick sample
- Urinary albumin-to-creatinine ratio (ACR) for early detection of kidney disease

*“POCT can significantly improve clinical operations with cost reductions through improved practice efficiency. The economic benefits of POCT may be realized in both fee-for-service and global payment environments.”<sup>3</sup>*

HbA1c test:  
CLIA-waived

## Increase Efficiency while Decreasing Costs

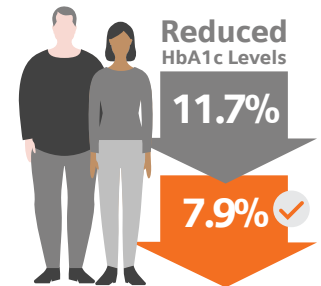

The DCA Vantage Analyzer can help you:

- Improve patient compliance by providing immediate feedback and allowing therapy adjustments during the patient visit.
- Improve and meet diabetes quality measures and leverage payer incentive programs.

## Improve Clinical Outcomes

By reducing HbA1c

Denton County Public Health demonstrated that by leveraging POC HbA1c testing as part of an overall diabetes management program helped reduce the overall mean HbA1c level<sup>1</sup>.

## Increase Patient Satisfaction

With actionable results in minutes

Patient satisfaction scores improve with point-of-care diabetes testing.<sup>2</sup>

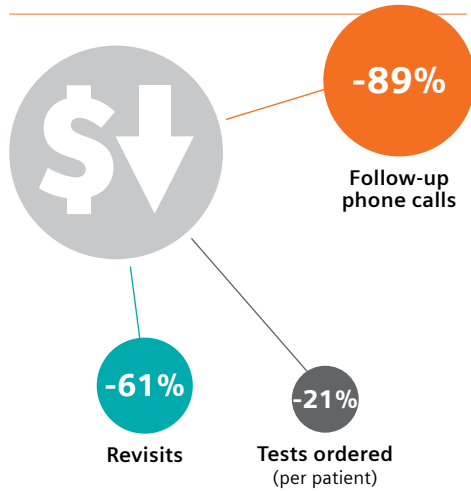

## Reduce Costs

### By increasing practice efficiency

The DCA Vantage Analyzer can reduce the need for follow-up phone calls and letters and potentially reduce associated costs.<sup>3</sup>

In a recent study, as much as **\$24.64** in savings per patient was realized.

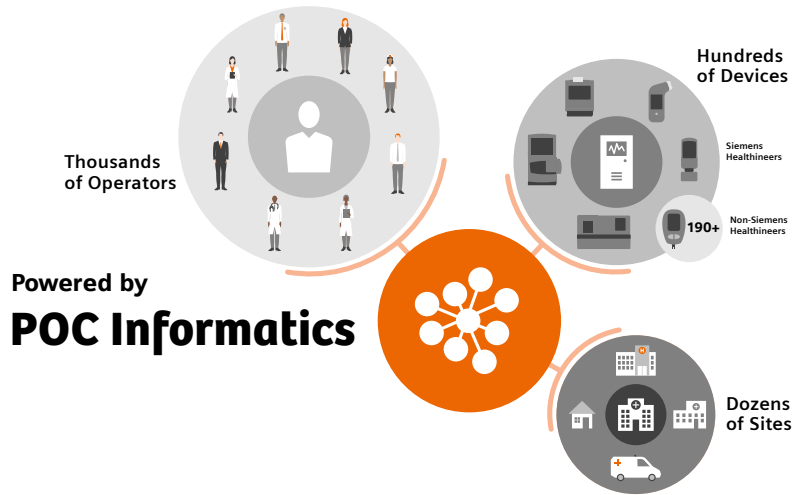

## Connectivity-Ready Analyzer

Flexible connectivity options to transfer data from the DCA Vantage Analyzer to the EMR/EHR, LIS/HIS system of your choice. Get data where you need it and keep your POC testing program in control and audit-ready.

## Product Configurations and Reimbursement Codes

| Item                                   | Configuration | Part Number | CPT Codes  |
|--|---------------|-------------|--|
| DCA Vantage Analyzer                   | 1 each        | 10282969    | n/a  |
| DCA® HbA1c Test Kits                   | 10 tests      | 10311134    | HbA1c (83036 QW*)                                |
| DCA HbA1c Controls                     | 4 vials       | 10311161    | n/a  |
| DCA Microalbumin/ Creatinine Test Kits | 10 tests      | 10311480    | Urine Microalbumin (82043)<br>Creatinine (82570) |
| DCA Microalbumin/ Creatinine Controls  | 4 vials       | 10325406    | n/a  |

The outcomes and statements provided by customers of Siemens Healthineers are unique to each customer's setting. Since there is no "typical" hospital and many variables exist (e.g., hospital size, case mix, and level of service/technology adoption), there can be no guarantee that others will achieve the same results.

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products included in this brochure are available through the Siemens Healthineers sales organization worldwide. Availability and packaging may vary by country and is subject to change without prior notice. Some/All of the features and products described herein may not be available in the United States.

The information in this document contains general technical descriptions of specifications and options as well as standard and optional features, which do not always have to be present in individual cases.

Siemens Healthineers reserves the right to modify the design, packaging, specifications, and options described herein without prior notice. For the most current information, please contact your local sales representative from Siemens Healthineers.
